The short back story: 'At 13 years old I experienced my first Dj mixed-tape. Yes 'mixtape' it's telling the era I grew up when tapes were around. This might be the playlist era, but do you remember getting handed an actual mixtape? There was this rush of excitement and anticipation.'

Strongly influenced by DJ Jazzy Jeff & DJ Rectangle to drop a couple of names, his curiosity quickly turned into a strong desire to learn the art of Djing and it became a passion. EL.G purchased his first pair of turntables, mixer, and records at 15 years old and ever since has been entertaining people and captivating listeners along the way.
